ENGLEFIELD
ESTATE

PERMISSIVE FOOTPATHS

You are very welcome to walk the permissive paths shown on the accompanying plan.

One permissive path starts at **point A by St Mark's Close** and continues to **point D opposite Chalkpit Cottages** where it crosses the A340 before joining an existing public footpath to North Street.

The second permissive path runs from Englefield Lodges on the A340 along the private drive towards Englefield House and ends at Appleton's Corner by the Englefield Garden Centre. There is no access along the drive to Englefield House beyond Appleton's Corner or to the Deer Park.

The third permissive path starts where the public footpath from opposite the Englefield Estate Yard meets the A340 and continues along the field edge and through a small wooded area where it then meets the permissive path running along the private drive towards Englefield House.

We hope you will enjoy these paths which make it possible to walk a circular route from Englefield to North Street or a shorter circular route from Englefield Village. For longer walks, other public footpaths lead from North Street to Sulham or Theale.

Some paths run through farmland and it is likely that livestock will be grazing. Please keep dogs under strict control at all times, i.e. on a lead and keep to the marked route. In addition, please ensure that all gates are shut securely and please clear up after your dog.

Thank you.
